

KDH provide an excellent and supportive service to the Construction Industry. KDH are accredited to assess a wide variety of Vocational Construction NVQs. Assessing Trades at Levels 2 & 3, Supervisors at levels 3 & 4 and Construction site Managers at levels 6 and 7, Senior Management.

We believe we are in a "people business". As such we wish to establish the requested product is suitable to your needs and experience.

We will ensure all successful candidates are developed and progressed, receive IAG (information, Advice and Guidance) and are not just merely handed a certificate of provision upon completion.

We also offer construction safety training. All our NOCN accredited services can be researched on our products tab of the website.

Training programmes can be delivered on site, or through the KDH bespoke training facility, set in a beautiful, rural location in the Norfolk countryside; ensuring conditions are conducive to an excellent learning environment and an enjoyable experience.
